

High Quality, Reliable Conference Calls for Less!

Web Conferencing

Zip Conferencing's Web Conferencing service is an easy to use tool that allows you to engage your audience through full featured web collaboration. You can hold a productive meeting from your desktop with audience sizes from 1 to 100.

Benefits of Web Conferencing

Decrease Costs

You can interact with co-workers, clients and prospects at a fraction of the cost of a face-to-face meeting.

Increase Productivity

A Web Conference can jump-start a project and quickly get everyone on the same page or put you in front of more prospects in less time.

Enhance Participation

Adding a visual element to your conference calls will increase retention of the information and engage your participants in a way not possible over the telephone alone.

Web Conferencing Features

Ideal for daily team discussions, sales presentations and training. Zip Web Conferencing has a variety of integrated audio and collaboration features to make your meetings more interactive and productive.

Application Sharing

Demonstrate and share any software or application from your desktop to remote audiences.

Content Library

Store presentations, bookmarks, polling questions and other content for easy access during your presentation.

Virtual Whiteboard

Brainstorm, diagram and share ideas just like you were in a conference room.

Easy to Use

Zip Web Conferencing is easy to use for you and your participants. Its intuitive interface means anyone can do it!

Collaboration Features

Create a truly interactive meeting with chat, Q&A, web tours, and polling.

Recording

Both the audio (if you use Zip Audio) and web conference will be recorded in a single file with just one click.

Video Integration

Share live video of all your presenters with your participants via a webcam from the meeting interface.

Invitations and Evaluations

Send email invitations and collect post-meeting feedback from your participants using our easy to use web tools.

Personalize your Meeting Room

Apply your company logo to the web interface and use your own dedicated meeting room URL to conduct your meetings.
